WHY WE ARE THE RIGHT CHOICE

Quality

Our goods are the result of strict production standards and careful attention to detail. It is constructed to last for a long time and perform well. Everything about it, from the design to the materials, has been picked with longevity and dependability in mind. We guarantee that you will be completely satisfied with the quality, value, and performance of every one of our products. It's a symbol of the our team's dedication to quality and a guarantee that customers will get nothing less than the best.

Innovation

We at Kaka thinks, keeping up with the competition in a dynamic market requires constant innovation. It entails developing and deploying novel approaches that improve existing conditions. Novel products are always being developed to meet the ever-changing demands of consumers. It encourages development and opens doors to new possibilities.

Safety

Product safety is our primary focus. Each product we make is safe for its intended application. During manufacturing, we do risk assessments and quality control. Our products adhere to safety standards and regulations. We monitor safety issues and consumer input to improve. Our consumers' safety is our first priority; therefore, we provide items they can trust.

Integrity

Our core principle is honesty. Our dedication to quality shows in the fact that all of our goods are up to par. We put an emphasis on honest dialogue and gaining the confidence of everyone we interact with. Ecological and social considerations must be given equal weight. Gaining your trust is crucial to our success.

Keep Moving Forward

Advantages of Utilising High-Quality Items

Longevity & Sturdiness

Quality items are made to last. They are built to last because to the high quality materials and meticulous production techniques from which they originate. In other words, you won't have to replace them as often since they will last a long time.

Performance & Reliability

High-quality goods are created and tested to provide the best performance. They are meticulously constructed while upholding stringent quality control standards. This dependability guarantees that they perform as intended and live up to your expectations, preventing aggravation and difficulty for you.

Increased Protection

More Stringent Testing for Quality Control Means Greater Peace of Mind for Consumers. When you buy anything of high quality, you can be certain that it has been thoroughly tested for safety and meets all industry standards.

Cost-Effectiveness

Quality items may have a higher purchase price, but they usually end up saving money in the long term. Because of how long they last, you won't have to spend as much money on repairs or replacements.

Satisfaction of Buyers

Superior Quality Goods are Developed Keeping Buyers in Mind. Customers are more satisfied because of the greater functionality, performance, and durability they provide. Customers are more likely to be pleased with their purchase when they use high-quality items.

Who We are

In Gujarati, 'KAKA' means paternal uncle, an ideal, integral member of a close-knit family. Someone who can be trusted without a doubt and who is a well-wisher. We aim to symbolize a familiar feeling since 2011 and a brand that is your well-wisher as well. With a wide range of high-quality products that surpass your expectations when it comes to water tank or bathroom fittings needs, our commitment to your satisfaction is unparalleled.

Speaking of Water Tanks, there are various requirements for each one of us, and finding all those variables at one stop is not possible at times. From 6 layer tanks to underground and loft ones, you can trust us with your water tank needs.

Over time, the recurring growth of bacteria on the surface of the tank makes stored water unsafe for drinking. To keep the inner surface clean and clear of any bacterial infestations, our tanks are made of 100% virgin plastic, and anti-pathogenic material. For added protection, the threaded lid provides as a strong physical barrier against environmental pollutants.

Along with that, we are stepping in the bathroom fittings' arena with our PTMT range and hope to get the same love and support.

Group of Companies

Established in 2001 with a commitment to a 'no compromise' approach, we've evolved into a trusted global partner for leading brands in 75+ countries. Fueled by innovation and our in-house 'Brain Squad,' we continually enhance our high-quality excipients, serving diverse industries such as Nutraceutical, Pharmaceutical, Food, Cosmetic, and beyond.

Accent expands its influence with the launch of its API division, dedicated to delivering cutting-edge Active Pharmaceutical Ingredients. Committed to innovation and excellence, Accent continues to shape the future of healthcare solutions.

The company is being led by a team of competent people who have roots in agriculture since 3 generations. The combined experience of the top management is 55 years in the Indian market.

We're a leading pharmaceutical company, excelling in the rapid development and commercialization of high-quality formulations. Our robust technological foundation and collaborative approach ensure superior products for the market.

Industrial Products

To help a refinery run more efficiently, raw materials such as oil, gas, and fuel are typically stored in industrial grade storage tanks we excel in making of.

- Chemical Storage Tank
- Cylindrical Vertical Containers
- Mixing Tank
- Processing Trolley
- Rectangular Tanks
- Stackable Crates
- Pallet Containers
- Pallets
- Spillage Pallet
- Dryer Trays

Chemical Storage Tank

Up to **20,000** units of liquid Chemicals

ULTRA STRONG BLACK LAYERS

The primary industries that use industrial storage tanks are the chemical, cosmetic, plastic, steel, refinery, power and energy generating, graphic and paper, and food and beverage industries.

SMC Junction Box

Electrical enclosure that protects your wirings from every possible external threat - be it weather or animals. Keep your connections safe.

- SMC Junction Box
- SMC Meter Box
- SMC Distribution Box
- FRP Grating

SMC Junction Box

Features

- High heat distortion Temperature (200°C as per IS: 10192)
- Restricts unauthorised Tapping
- Cable entry from boom
- Rot-proof and termite resistant
- Fire retardant- Class FV-0 as per IS: 11731 Part-II or V-0 as per UL-94
- Shockproof and rustproof
- 100% waterproof
- Temper proof
- Pilferage proof
- Maintenance-Free
- Pole mounting arrangement

Types of Junction Box

- SMC Junction Boxes
- Cable Junction Boxes
- Wiring Junction Boxes
- Electric Junction Boxes
- Weather proof junction boxes
- Flame retardant junction boxes
- SMC Electrical Junction Boxes

Applications

Junction box/Cutout box/fuse box for single phase/2 core low waage FIL/CFL base lighng system for pedestrian/patway illuminaon.

Pole mounted junction Box/cutout Box/fuse box for road/street light for 3 phase/ 4 core high core waage HPSV/HPMV/MH based lighng system for industrial Applicaons.

SMC Meter Box

Applications

- Single Phase Meter Box
- Three Phase Meter Box
- Three Phase HT AMR Meter Box
- Three Phase Meter Box For Whole Current Meter Box
- Agriculture Meter Box
- SMC Mul-Meter Box

Features

- Shockproof and rustproof
- Rot-proof and termite resistant
- Cable entry from boom and/or sides
- 100% weatherproof
- Pole mounting arrangement
- Tamper proof
- Pilferage proof
- Restricts unauthorized tapping
- Maintenance-free
- Fire retardant – Class FV-0 as per IS:11731 Part-II or V-0 as per UL-94
- High heat distortion temperature (200°C as per IS:10192)
